EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sandra Wells on May 3, 2007.

The application has been amended as follows:

Claim 1. (Amended) An array comprising a plurality of nucleic acid probes, wherein the plurality comprises each of the sequences listed in SEQ ID NOS 1-982,914, and wherein each probe in the plurality of nucleic acid probes consists of one of the sequence listed in SEQ ID NOS: 1-982,914 [and wherein the plurality of nucleic acid probes of the array comprises each of the sequences listed in SEQ ID NOS 1-982,914].

2. The following is an examiner's statement of reasons for allowance: The claims are drawn to an array which comprises a plurality of 25mer nucleic acid probes, such that each probe in the plurality consists of one of each of the sequences of SEQ ID NOS 1-982,914. The claims are allowable over the prior art because the prior art does not teach or fairly suggest a collection comprising 982,914 25-mer nucleic acid probes, which each consist of one of the sequences of SEQ ID NOS 1-982,914. Although the prior art does teach the sequence of the mouse genome,

Art Unit: 1634

the art does not teach or suggest constructing the specific collection of 25 base pair probes as claimed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
